

HYBRID EDUCATION ASSISTANT SKILLS PROGRAM

Audience: Teaching Assistants, Education Support Paraprofessionals, and Student Teachers

Hours: 65 Hours includes a project

Teaching assistants and Education Support Professionals train for Flexible Schools through this program in online learning including managing online lessons, using technology tools and remote learning applications.

Participants are introduced to flipped, hybrid and blended learning models, considerations for online safety, student engagement, classroom management and video conferencing etiquette.

Upon successful completion of this program, participants should have an increased confidence in being able to **provide educational technology support services for students and teaching staff** that could include:

- ✓ Setting up an LMS such as Google Classroom
- ✓ Adding tasks and activities into an LMS
- ✓ Setting up roles in an LMS
- ✓ Video recording and editing
- ✓ Using technology tools for remote learning
- ✓ Uploading and sharing videos
- ✓ Creating quizzes and assignments in an LMS
- ✓ Setting up a gradebook, as well as support with grading
