

Strategy Workshop: Understanding Flexible Schools

Helps principals and school leaders understand, plan and implement Flexible Schools. Provides resources and tools that schools can use to prepare for unpredictability and smooth transitions. Strategies can be put into place right away that strengthen online teaching and learning, technology and infrastructure, safety protocols, parent partnerships and more. Get ALL of the following:

Action Planning TEMPLATE with a needs assessment to prepare immediate next steps.

Dozens of RESOURCES include additional customizable templates, reading, tools, guidelines and examples to help your team with implementation.

Private Facebook group to continue the conversation and ask specific questions, share concerns, connect on best practices for implementing increased flexibility at your school.

A Flexible School is one that offers **multiple learning alternatives** and can **easily transition** from one to another across these category areas.

Flexible Learning

Adaptable Assessments

Technology Infrastructure
