

Will students and staff be in school?

As schools choose to re-open school buildings in a limited or full capacity for the 2020-21 school year, taking steps to comply with safety guidelines is important. One of those may be the use of face masks by staff and students in your school.

Schools can bulk order masks. Choose from KN95 and disposable 3-ply masks for your teachers, staff, and students.

Disposable 3-Ply Masks

(not for medical use)

- ✓ Great for daily protection from allergens and airborne pollutants.
